

Executive Order 7 of January 26 2025

## **Improving the Efficiency of Government Institutions and Ministries around Finance**

### **Section 1:** *Finance.*

- (a) To improve the efficiency of government institutions and ministries, all government institutions and ministries shall share all information on finance to the president.
- (b) To make processes more streamlined and simple, all institutions and ministries have to regularly report what they are spending on and how much they are spending and how much they are gaining in profit. This data will be automatically given to the parliament since the parliament decides on the budget for government ministries and institutions.

**Section 2:** *Why.* This is to make the process more efficient and to make sure no corruption spreads through government ministries and institutions around finance. This will also simply make it easier for parliament to decide what budget the government ministries and institutions should have.

THE PRESIDENT OF THE SOVEREIGN STATE OF ÅLAND

*26 January 2025*
