

Restructuring Executive Orders and Undoing All Previous Executive Orders up to Executive Order 3

Section 1: *Restructuring and Undoing.*

- (a) The executive orders 1, 2 and 3 will be nullified. These executive orders will no longer be enforced by the government.
- (b) The executive order documents will be restructured to be more formal and clear and include more information.
 - (i) Future executive orders will include what the executive order is for, what the executive order will do, how will the executive order do it and why the executive order is being signed.
 - (ii) Executive orders will be divided into sections, which can be further divided to make it more clear on what the executive order means. This includes adding sub-points like (a) and (b) and that can have extra section subdivisions like (i) and (ii) for better hierarchical organization.

Section 2: *Why.*

- (a) The reason behind nullifying executive orders 1, 2 and 3 is to allow a restructuring of executive orders without changing its definition in the constitution. This will allow a more formal and clear way of enforcing executive orders.
- (b) This is not an attempt to change the constitution without amending it. This is to change how executive orders are written and to nullify executive orders 1, 2 and 3.

Section 3: *How.* This executive order shall be in effect by 26 January 2025. This executive order shall be enforced by the national government and president of the Sovereign State of Åland when writing future executive orders.

THE PRESIDENT OF THE SOVEREIGN STATE OF ÅLAND
26 January 2025
