Stick Battle Ban

April 9, 2020
By Royal Decree,

All stick battles, stick throwing, and stick breaking is now illegal. The ban will come into effect Friday, April 10th, 2020.

The decision was made after my cousin, Sean Douangaphaivong, had his retina detached during a stick battle on July 4th, 2019, in the Swifty Creek Territory. After vision problems and two surgeries, it is still unknown if he will regain his vision.

The only exception for these activities is if the individual is wearing eye protection, and a construction permit is obtained.

All persons caught performing these actions, without the aforementioned materials, will be arrested and charged with public endangerment.

Please keep Sean Douangaphaivong in your thoughts and prayers.

Sincerely,

HM King Matthew I
